Profile

Mathematics and Physics graduate (first-class) from the University of Bath with 13 months professional experience in trading compliance seeking a short-term role ending December 2026. I have over 5 years of applied data analysis experience using Python, Excel VBA, and Microsoft Office. Having lived in 4 different countries, I adapt to new environments quickly.

Education

BSc Mathematics and Physics | *University of Bath, UK* Sept 2022 – Jul 2026

Classification: First-class honours (Programme Average: 78%).

Final Year Communicating Physics Project: I planned, performed, and evaluated a science outreach event on active cosmological research to a non-physics adult audience.

Coursework Modules: Data Analysis for Astrophysics (Python), Computing (Python & C).

Sports & Societies: Inter-halls & Inter-departmental football, MusicSoc, PhySoc.

International Baccalaureate | *Birkerød Gymnasium, Denmark* Aug 2020 – May 2022

Achieved 41 out of 45, including maximum grades (7) in my Mathematics Analysis & Approaches and Physics higher level modules, and a B for my Physics Extended Essay.

Experience

Commercial Trading Compliance Analyst | *Phillips 66 Ltd, UK* Jun 2024 – Jul 2025

- Led the global trade surveillance function, managing over 65% of all alerts across 7 financial markets & calibrated over 20 alerts using logic-based parameters.
- Led UK regulatory reporting tasks, uplifting 31,000+ trades using VBA & XML files.
- Networked with industry professionals in over 5 vendor-organised events.
- Collaborated with Commercial IT in automating 2 internal compliance processes.

Camp Counsellor | *International Gymnastics Camp, US* Jun 2023 – Aug 2023

- Took responsibility for the safeguarding of over 200 campers weekly, including direct responsibility for a cabin of over 10 campers aged 7-17.
- Collaborated with a multi-cultural team to organise activities & quickly solve problems.
